

Snapshot of Kerrville, Texas

January–June 2021 Progress Report

Goals

- Improve health for Doyle residents by promoting healthy eating
- Reduce policy and systems barriers that create inequities
- Increase community engagement and resident leadership through system and policy changes

By the Numbers

- 211 residents served at the Doyle food pantry
- 390 individuals provided with recipes, food demonstrations, tastings and garden tours
- 867 individuals reached through communications and outreach such as community events and local media coverage

Success Stories

1. Developed strong partnerships with local dentists and coordinated appointments for residents through a health navigator to increase access to dental care

2. Advocated for changes in policy with the San Antonio Food Bank to enable at-home food deliveries for residents

"There seems to be a shift in the mindset of organizations and churches. There is a sense of coming together with a shared vision to support the Doyle community...and [this is] what we are counting on to sustain us and move us forward."
